Dear Colleagues and Friends,

It is our great pleasure to welcome you to the 25th European Congress of Internal Medicine, ECIM 2027, taking place from 31 March to 3 April 2027 at the iconic Cité des Sciences et de l'Industrie in Paris, France.

On behalf of the European Federation of Internal Medicine, we are delighted to invite internists, subspecialists, researchers, educators, trainees, and healthcare professionals from across Europe and around the world to join us for this important scientific and professional gathering.

The theme of ECIM 2027, "Integrating Evidence-Based and Personalised Medicine," reflects one of the most significant challenges and opportunities facing modern healthcare. Advances in genomics, digital technologies, artificial intelligence, and data science are opening new possibilities for patient care. At the same time, the core mission of Internal Medicine remains unchanged: to apply the best scientific evidence while recognising the unique needs, circumstances, and values of every patient.

ECIM 2027 will provide an outstanding platform for discussing the latest developments in Internal Medicine, innovative diagnostic and therapeutic approaches, multidisciplinary collaboration, medical education, and healthcare delivery. Through keynote lectures, state-of-the-art sessions, interactive workshops, clinical case discussions, and presentations of cutting-edge research, participants will have the opportunity to exchange knowledge, share experiences, and shape the future of our specialty.

Beyond the scientific programme, Paris offers a remarkable setting for networking and collaboration. Known for its rich history, culture, and spirit of innovation, the city provides the perfect setting for strengthening professional relationships and fostering new partnerships among colleagues from across the international medical community.

We look forward to welcoming you to ECIM 2027 and to another inspiring congress that celebrates Internal Medicine while advancing patient-centred care for future generations.

We warmly invite you to join us in Paris.

With our best regards,

Prof. George Dalekos

President

Educational Support Opportunities

Medical education plays an important role in the quality of healthcare delivered across the globe. Physicians, researchers, scientists, and other healthcare professionals are increasingly challenged to maintain their knowledge, skills and abilities within their respective professions. By providing an educational grant in support of the educational opportunities below, you will make a vital contribution to these efforts and support better patient outcomes. All educational grants are managed in compliance with relevant CME accreditation criteria and industry compliance codes. In order to ensure independence of all CME accredited elements, companies providing grants may not influence the topic, speaker selection, or any other aspect of the content or presentation. No promotional, commercial, or advertising materials may be included in the following opportunities. All support will be disclosed to participants. All grants are managed in compliance with relevant accreditation and industry compliance criteria.

Educational Support Opportunities

Independent educational grants, dedicated to the educational mission of the Annual Congress, are appreciated and important to the success of the event. • Support will be acknowledged in the Industry Support and Exhibition section, on the event website and mobile application.

Educational Grant in Support of Existing Scientific Session

Educational Grant in support of an Existing Official

Session accepted or invited by the Scientific Committee and supported by a grant from the industry. • Support will be acknowledged in the Industry Support and Exhibition section, on the event website and mobile application.

Educational Participation Grant

BROS Group will take on the responsibility for indirect sponsorship for ECIM 2027. The industry will entrust the BROS Group and provide educational grants directly, and BROS Group/EFIM will be responsible for participants (HCPs) pre-selection.

Educational Participation Grants of any amount are appreciated and important to the success of ECIM 2027.

Recipients (HCPs) will need to fulfil the criteria specified by EFIM in order to be eligible to apply for an educational participation grant. Accepted grant recipients will be contacted by the ECIM Secretariat.

- Support will be acknowledged in the Industry Support and Exhibition section, on the event website and mobile application.
